The action plan needs to align with the AKR strategic plan and should outline planned activities and priorities for the year. The action plan will inform the development of the KB annual budget and will have reportable targets.

2.3 Grading Examination

2.3.1 General Rules

The Grading Examinations for Kendo in Australia are undertaken in accordance with the MoD and relevant guidelines, and the *Standard Rules for Dan/Kyu Examinations of the International Kendo Federation (FIK)* issued on 24 May 2012.

As stated in Clause 1.5.1, in each calendar year, State and Territory Affiliated Associations (Affiliates) of the AKR are authorised to arrange the following grading examinations (affiliate examinations)

- Kyu examination events as directed by Affiliates; and
- No more than two Dan examination events. Grades include up to 4 Dan.

In each calendar year, the KB is authorised to conduct the following grading examination (national examination):

- One Dan examination event during the AKC. Grades include up to 5 Dan.

The following rules are applied to grading examinations:

- The candidate for a Grading Examination must be a financial member of an Affiliate;
- The candidate who wishes to attempt a Grading Examination must be approved by his/her instructor or club President, using the prescribed AKR Grading Application Form. This approval must be accepted by the relevant Affiliate;
- The approval should be based on the candidate's participation and training records, and technical competencies;
- The candidate must have lodged his/her application form, together with the prescribed fee with the Affiliate to which the candidate belongs to, by the prescribed application closing date;
- The application fee is retained by Affiliates or the KB for affiliate and national examinations, respectively;
- The candidate who has passed the grading must pay the prescribed registration fee on the day of the examination. After this fee has been paid the grading will be registered by the AKR;
- Examination results, together with the Registration Fees collected must be forwarded by Affiliates or the KB to the AKR, so that the appropriate registers can be updated. The AKR must then forward the updated grading register to the KB; and
- The Grading Application Fee and Registration Fee must be set by the AKR National Council.

2.3.2 National Examination

- The national examination will be held during the AKC. The KB is responsible for administrative and technical management of the national examination, including, *inter alia*:
 - Planning and implementation in accordance with the MoD and relevant guidelines (e.g. the Standard Procedural Guidelines Dan Grading Examinations);
 - Preparation of written examination questions;
 - Appointment of suitably qualified grading panel members;
 - Securing and managing administrative resources and logistics in liaison with national and state stakeholders;

2.3.3 Kyu Grading Examination Requirements and Procedures

Kyu examination events are managed by Affiliates. Affiliates are suggested to refer to the Standard Procedural Guidelines Dan Grading Examinations as an administrative and managerial basis of regional and local grading events within their jurisdictions.

Beginners should be training for 5 months or more prior to their first grading examination. Other candidates should spend 5 months or more between the previous grading date and the date of examination to be taken. The examiners qualification, size of examination panel and consent criteria is detailed in the AKR Standard Rules for Grading. It is not necessary that the candidate be promoted one grade at a time. If their ability warrants, and by agreement of the examiners, the candidate may progress by more than one grade to a maximum of two grades. i.e. 6 kyu to 4 kyu. Candidate for Shodan must have held 1 kyu for 5 months or more.

A tabulated summary of suggested Kyu grading requirements is presented in the table below. **The grading requirements shown should be taken as recommendations only and adjustments can be made as required at the discretion of each Affiliate. It is suggested that the KB be consulted prior to the implementation of these adjustment for harmonisation reasons.**

Candidates for 2 Kyu and 1 Kyu are required to complete two sessions of Jitsugi, a non-competitive match ushered by a tachiai. The tachiai calls 'Hajime' and 'Yame' at the beginning and end of the match. It is suggested that the total duration of the match between these calls be up to approximately 30 seconds. The affiliates are recommended to consider factors such as age, gender and physical characteristics in pairing candidates for the jitsugi session. Suitably trained persons may be employed as auxiliary players if necessary.

2.4.2 Competition Rules

General

The Rules are included in Appendix 1 to the MoD Section One. The minimum permitted age of players participating in the competition categories stated in Clause 2.4 is 16 years old at the date of competition.

Individual competitions:

- Each Affiliate has the right to enter a maximum of seven individual and seven team members in the championship (subject to the rules limiting representation to a total of 48 players in each individual competition).

The First Tier consists of 48 players split into four groups (A,B,C & D) of 12 players. Each Group is then split into four pools of three players. The sixteen pools will be seeded with one member from the top 16 point scorers participating over the previous three years of AKR National Championships. The first into Group A, second into Group B, etc, until all pools are located with one seeded player and then the remainder of competitors are drawn by ballot from state lists in the same manner (this should avoid state players meeting in the same first pool).

All 48 positions are to be filled from the state squads. If each state submits the maximum number (which will equal 49 players) the previous host state will limit entry to 6 members only. If there is a shortfall the current host state will have first option to fill one position and then rotate through each state in the following order after the host state:

Queensland, ACT, Western Australia, Victoria, New South Wales, South Australia, Tasmania, Northern Territory. (currently under review).

Each state or territory is to submit the total numbers with names in selection order to the KB two calendar months prior to competition. The KB will then apply the above process and determine the draw six weeks before the competition sending only the names of selected members to each state before the event. (Draw to remain confidential until the day preceding the championships.

Any vacancy occurring prior to the match will be filled by the host state or decision by the KB at the time to reflect all pools being operated.

- Veterans Individual competition is limited to members of at least forty five years of age at the commencement of the competition, and holds a grade of Shodan or above.
- Competitions will be undertaken by Pools of three or four players whenever possible, with the Pool winner going forward into the tournament which will be conducted on a knock-out system.
 - The match will be conducted according to Sanbon-Shobu, and its duration is four minutes for Kyu Individuals, five minutes for Dan Individuals, and four minutes for Veterans' Individuals.
 - If no winner is determined within the allocated time, the match will be extended (Encho) until the winner is determined.
 - The KB may limit the number of Encho before the commencement of the competition, in which case Hantei will determine the contest if no result is reached - this should only be done in the event of a shortage of time exists to conduct the whole competition, and the rules agreed prior to the commencement of the match.
- Matching of competitors is to be done by seeding the first sixteen members as referred earlier, and then by drawing. Competitors from the same State or Territory Renmei will be placed into different pools.
- The determination of a winner in the Pools section will be made in the following order of precedence:
 - Higher number of matches won; but, if it breaks even, then
 - Higher number of points scored.
 - Should there still be a tie, a play-off will be conducted according to Ippon-Shobu, until a winner is determined.

Team competitions:

- A team consists of up to seven members (five competitors and two reserves). Five-member system is applied to determine the winner of the match. Should a team fail to have five members, it may compete with four or three members.
- The Team should be selected from registered members of the State or Territory Renmei. The team members and the order of members in the team may be changed freely for every match.

- An order list of members must be presented to the Presiding Referee by the ending of the immediately preceding match. The order list for the first match must be submitted to the Presiding Referee thirty minutes before the first Team competition unless otherwise directed.
- In case where the competitors' order is different from the one described in the submitted order list, the following consequences will be applied:
 - If it is noticed before the declaration of 'Hajime' by the chief referee (Shushin) for a match, the order of the competitors can be corrected without any penalty.
 - If it is found after the declaration of 'Hajime' for a match by the chief referee, the referees of that match must stop the match immediately and the competitor whose order is incorrect (as well as any other competitor not in correct order from the same team) must both lose their respective matches and their opponents awarded 2 points per match respectively.
 - If it is proved before the bow of the end (Shuryo-no Rei) at the conclusion of the matches that members from both teams were in violation of the order submitted, all competitors whose orders were incorrect must lose his/her match and each opponent must be given 2 points respectively.
 - If it is found after the bow of the end (Shuryo-no Rei) by both teams, the winning and losing of them must not be changed.
- The State or Territory Teams will be placed into two pools of three or four teams where possible. The first and second places from the previous year's championships will be seeded into different pools and the remainder by draw. The top two teams in each pool will go forward into a play-off. The winner of Pool A will play off against the second place in Pool B. The winner of Pool B will play the second place of Pool A.
- The match will be conducted according to Sanbon-Shobu, and its duration is four minutes for Kyu Teams, and five minutes for Dan Teams. If no winner is determined within the duration, a draw will be declared.
- Determination of the winning team will be made in the following order of precedence:
 - Higher number of individual winners; but, if it breaks even; then
 - Higher number of points scored; and
 - Should the above turn out to be even, a play-off between a representative of each team will determine their positions. This play-off is to be conducted according to Ippon-Shobu, with unlimited duration.
